Cleaning Guide:

Spraying cleaning products on to electrical products is not recommended.

It is important to ensure that switches are turned off before cleaning.

Do not use any cleaning sprays - only wipe down with damp cloth or rub with dry cloth. (Do not use an abrasive cloth as it may scratch the plastic).

Do not use harsh chemical cleaners as these can break down the plastic and cause it to crack.

Mounting Brackets (Group 1)

- Trader brackets are available for many different construction applications
- They feature 84mm mounting centres with 6/32 UNC standard mounting threads to suit Australian accessories
- The aperture sizes are designed to suit the majority of Australian accessories in the market
- Made from strong durable electro-galvanised zinc steel
- Models available for timber construction, steel frames and brick/masonary applications
