

HYSWSHR

See current catalogue for further detail

Cleaning Guide:

Spraying cleaning products on to electrical products is not recommended.

It is important to ensure that switches are turned off before cleaning.

Do not use any cleaning sprays - only wipe down with damp cloth or rub with dry cloth. (Do not use an abrasive cloth as it may scratch the plastic).

Do not use harsh chemical cleaners as these can break down the plastic and cause it to crack.

Switch Shrouds

- The insulating shroud suits components/products with a Diameter 20mm body
- It improves double insulation and accepts two twin 1.5mm² insulated sheathed cables.
- Suits TRADER round based switch mechs such as: MESW, MESW20, MESWC, MESWC35, MESWI and MESWDP
- Also suits other brands
