NOT interchangeable with PMMPS1**

Cleaning Guide:

Spraying cleaning products directly on to electrical switches or power points (sockets) is not recommended. It is important to ensure that switches are turned off before cleaning.

Do not use any cleaning sprays - only wipe down with damp cloth or rub with dry cloth. (Do not use an abrasive cloth as it may scratch the plastic). Do not use harsh chemical cleaners as these can break down the plastic and cause it to crack. Do not wash the cover plates in water over 60°C.

Powermesh Covers - Leopard

- Powermesh products are supplied in classic Puma architecture. With the simple and inexpensive addition of Clouded Leopard or Snow Leopard 'Powermesh Covers' you can easily match Clouded Leopard or Snow Leopard standard switches and sockets throughout your home, with a consistent style and finish. Covers available in Trader's Clouded Leopard & Snow Leopard ranges (see full descriptions on next page).
- Covers, plates and dollies are made from UV stabilised polycarbonate to avoid discolouring to yellow.
- Standard Fan Controller with Light Switch Covers (Puma design) also available in black.
- Clouded Leopard standard colours are Matt White (MW) and Matt Black (MBK)
- Snow Leopard standard colours are White and Black (BK). Please check availability.
