Brushed Aluminium Covers

- Brushed Aluminium covers provide a great protective upgrade to switches and power points and do not fingerprint as much as other materials while providing a similar look.
- The brushed finish is complemented with the décor of other brushed stainless appliances or looks stylish on other backgrounds.

PUSWPV6GCBA	Switch Plate Vertical 6 Gang Cover Only Brushed Aluminium

Cleaning Guide:

Spraying cleaning products on to electrical products is not recommended.

It is important to ensure that switches are turned off before cleaning.

Do not use any cleaning sprays - only wipe down with damp cloth or rub with dry cloth. (Do not use an abrasive cloth as it may scratch the plastic).

Do not use harsh chemical cleaners as these can break down the plastic and cause it to crack.
