See current catalogue for further detail

Dimming

The Scorpion Downlights have been designed for optimum performance with our Dimpala range of dimmers:
DIMR - Dimpala Universal Eclipse Dimmer // DIMPRX - Dimpala Push Rotary Dimmer No Glow // DIMPR - Dimpala Push Rotary Dimmer
Please refer to our Website or Catalogue for further detail and accessories

Note: In some regions a slight flicker may occur when the luminaire is dimmed. This could be due to power line signals sent by electricity supply utilities. This effect is not a malfunction of the luminaire or dimmer but could be a result of local power supply changes. If this occurs at any stage adjusting the dimmer back to maximum output should minimise the effect.

Cleaning Guide:

Spraying cleaning products on to electrical products is not recommended. It is important to ensure that switches are turned off before cleaning.

Do not use any cleaning sprays - only wipe down with damp cloth or rub with dry cloth. (Do not use an abrasive cloth as it may scratch the plastic).

Do not use harsh chemical cleaners as these can break down the plastic and cause it to crack.

LED Downlight 5W, 7W, 9W

- Dimmable
- Colour Selectable
- Body colour is green
- Shell colour is white/green
- IC-4 rated can be covered and abutted - See instructions
- Flex and Plug - cable length 1.2 metres for easier installations
- Integrated driver
- Diffused lens
- Shell colour white only with green cap
- Separate driver
- Adjustable gimbal
- Dim to warm 2000K - 3000K
- Warranty covers 5 Years Residential & 3 Years Commercial
