Ten out of Ten Smoke Alarm Features

Our new Bear BESMOKEY10 photoelectric mains-wired smoke alarm is packed with features.

BESMOKEY10 - Photoelectric Smoke alarm

Reliability:
Mains powered smoke alarm supplied with 10 Year lithium battery.

Choice of Interconnection:
Hard-wired up to 24 units or Wireless up to 40 units.

Interconnectable with BESMOKEY10BW

Easy install:
Hinged base plate detaches and mounts to the ceiling.

Easy wiring:
Base plate comes with 4 large terminals with ample wiring room.

Hinged base plate easily detaches

Clearly labelled easy to identify sensor wiring

BESMOKEY10WM - Wireless module

Wireless interconnection requires BESMOKEY10WM wireless module.

Simple to install: Insert one wireless module into each smoke alarm you wish to wirelessly interconnect with.

Easy pairing: Press TEST on Master (3 times in 2 sec) and linked alarms to pair. See instructions for more detail.

Easy to insert wireless module
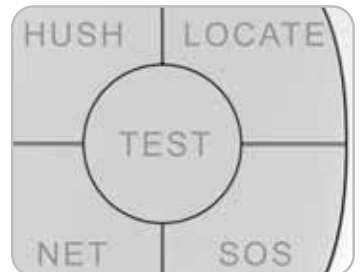

BESMOKEY10REM - Remote

Convenient: Works only with **BESMOKEY10** smoke alarms, fitted with the **BESMOKEY10WM** Wireless Module for easy control.

NET - connects the remote to the Master Alarm

LOCATE - returns alarms to normal other than the alarm which detected the smoke

HUSH - silences alarm mode for 10 minutes.

SOS - activates the smoke alarm network for one minute.

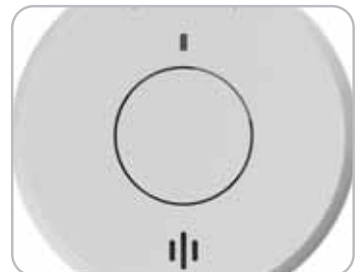

Easy to operate remote control

BESMOKEY10BW - Photoelectric, Battery only Smoke Alarm

No wiring: Supplied with a non-removable Lithium 10 Year battery.

Wireless interconnection: Up to 40 other units

Easy pairing: Press TEST on Master (3 times in 2 sec) and linked alarms to pair. See instructions for more detail.

Interconnectable: With **BESMOKEY10** fitted with **BESMOKEY10WM** Wireless module.

See instructions and data sheets for more info.
