COBRA™
CONDUIT FITTINGS

Elbows, tees and the works

Our range of Trader Cobra Fittings offer everything a contractor needs for the perfect surface wire install. The range includes couplings, reducers, glands, elbows, junction boxes and inspection tees.

Conduit Fittings have been upgraded to Heavy Duty, suitable for underground installs. All products are labelled for easy identification, while tees and round junction boxes have the barcode positioned underneath out of sight.

They fit well, won't discolour and have been tested for Australian conditions.

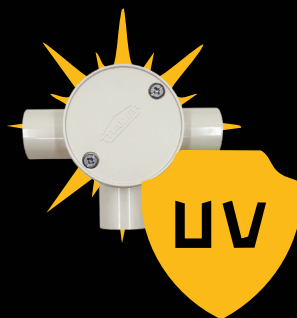

Trader Cobra, all the fittings to a tee.
