## SWITCH IT. SWIPE IT. SAY IT

### Control the Switch

Simple control of your lights and fan with a touch slide. Triple press activates speed sense for a better night's sleep.

### Phone Control

Manage all the fans in your home and schedule ventilation on your phone using the Zimi app on your phone.

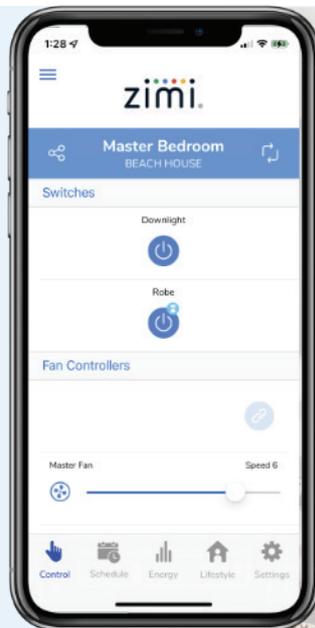

### Voice Control

Hands free control lets you do it all from the comfort of your couch. Simply ask your favourite voice assistant.

## ZIMI APP

### Fan control in the palm of your hand

Change the speed of all your fans, switch the lights or set schedules using your smart phone or tablet.

Set the fan to fast

Turn the fan on for 2 hours

Slow down the fan

Turn the fan on at midday

Increase the fan speed

Turn the fan off at 4pm

## VOICE CONTROL

### It's so much more than off and on

Increase or decrease the speed, set to medium or very slow, or even pick a speed from 1-7. Voice makes it easier to control all your fans.
