

BRAINIAC

DOUBLE POLE

Up here for thinking, our Puma and Leopard 4X4's, 4X4AC's and 4X2SWAC are USB charging powerhouses.

A7C models are designed with two rows of Type A & C charging ports, ready to charge all your devices including the latest mobile phones with the Type C connection.

All models pump out a mighty 3.1A, splitting the current if each port is used.

Then there's the socket outlets, spaced extra wide for power packs.

Install is smart too, made to fit standard mounting centres. Mounting blocks also available if needed.

CHARGE IT SMART WITH THE BRAINIAC OF USB CHARGING.
