

## AMPFRVPLUS

### Cleaning Guide:

Spraying cleaning products on to electrical products and equipment is not recommended.

It is important to ensure that switches are turned off before cleaning.

Do not use any cleaning sprays - only wipe down with damp cloth or rub with dry cloth. (Do not use an abrasive cloth as it may scratch the plastic).

Do not use harsh chemical cleaners as these can break down the plastic and cause it to crack.

# Ampfibian Power Adaptor

## Max 15A to 10A IP55 with 10A 2400W Overload Miniature Circuit Breaker With RCD for RVs & Caravans

The Ampfibian AMPFRVPLUS Power Adaptor is specifically designed for caravans/motor homes, allowing you to connect your 15A caravan to any domestic 10A power supply. It's weatherproof, rated to IP55 and has a built-in padlock attachment which also locks the lid.

The RV-Plus adaptor is certified to comply with Australian electrical standards, allowing safe and legal connection between 15A devices and 10A domestic power supply.

The Ampfibian RV-PLUS comes with a miniature circuit breaker which acts as a 10A power limiter protecting your power point and wiring from overheating. It also comes with an RCD (Residual Current Device) to protect against electrocution.

Designed and made in Australia for tough Australian conditions, the RV-PLUS comes with a 2 year product warranty giving you extra peace of mind, making this the ultimate caravan accessory.
