

## MHL-20FA

# Mistral Industrial Heater

## 2000W 240V~

### Green & Black

The Mistral 2000W Industrial Heater features a green and black exterior that sits safely on free standing feet.

It is the perfect heater for workshops, garages, stores, etc to take the chill out of winter air.

It is operated by simply plugging into a standard 3-pin 10A socket and turning on the power heat switch. Designed to rapidly heat air, or if air-circulation only is required there is the option to select fan only. The thermostat dial also allows users to find the ideal heat setting.

Weighing only 3.5kg and supplied with a carry handle means it can easily be moved around to solve your heating needs.

For added peace of mind the heater is supplied fitted with tip over safety switch, overheat protection, protective grille, adjustable thermostat and IP24 waterproof rating.

#### Care and Cleaning

Always ensure the appliance has cooled completely before cleaning and maintenance.

- Always switch off the appliance and unplug it from the electrical socket and wait for it to cool down before cleaning. Ensure that the unit is cool enough to work on.
- Avoid contact with heat surface/parts.
- Use only a soft, damp cloth to clean the fan heater. Keep the fan heater clean.
- Never spray with liquids or submerge the appliance in water or any other liquid.
- Clean the air inlet/outlet grilles frequently. Do not allow any objects to enter air inlet or outlet as this may cause electric shock, fire or damage to the heater.
- Do not use harsh chemicals or solvents to clean this product and avoid using abrasive cleaning agents. Use a slightly dampened, lint-free cloth to clean this appliance.
- Store the appliance in its original box to protect it from dust in a dry place if it will not be used for a long period of time. Note: If the cordset of the appliance becomes damaged discontinue use.

**Warning:** NEVER immerses the unit, power cord and plug in water or any liquid while cleaning and never allow water to drip into the appliance.

#### Features & Specifications:

- Heat setting: 2000W
- Overheating protection
- Adjustable thermostat
- Tip over safety switch
- Weatherproof: IP24
- Fan only mode
- Colour: Green & Black
- 1.5m lead and plug
- Max Current: 8.3A
- Voltage: 240V~
- Dimensions: 260 x 225 x 310mm
- Net Weight 3.5kg
