Care and Cleaning

Warning: Don't let water enter into the motorized brush head as there are electrical terminations contained within and may irreparably damage.

- Use a damp cloth to wipe off any dirt deposits from the external brush head enclosure if need arises.
- Do not use abrasive cleaning agents (scouring agents, diluting agents) because they can damage the synthetic surface of the device.
- In order to achieve the best performance, empty the dust cup and clean filter after each use.

Note: After long period using, the bristle may be jammed by hair or something similar, need to clean it in time in order to make the machine work efficiently.

Please follow the Care & Cleaning Instructions in accordance to the Use & Care guide supplied.

Product Dimensions:

250 (L) x 225 (W) x 1080 (H) mm
