-  Fluorescent
-  CFLs
-  Electronic transformers
-  Standard iron core & toroidal transformers
-  Exhaust fans / small motors

Cleaning Guide:

Spraying cleaning products directly on to electrical switches or power points (sockets) is not recommended. It is important to ensure that switches are turned off before cleaning.

Do not use any cleaning sprays - only wipe down with damp cloth or rub with dry cloth. (Do not use an abrasive cloth as it may scratch the plastic). Do not use harsh chemical cleaners as these can break down the plastic and cause it to crack. Do not wash the cover plates in water over 60°C.

Trader Powermesh products must be installed by a qualified electrician. Zimi requires a compatible (Android, iOS) mobile device.
