

Industrial Range

Looking for an alternative to other brands?
Our Industrial Range, the Buffalo is the perfect option!

A Comprehensive Backward Compatible Range of
Industrial Switchgear which performs in the dust and the wet with the
strength, safety and performance of a Buffalo.

Buffalo Combinations, Switches, Sockets, Appliance Inlets, Plugs and Extension Sockets are tough and robust and perform well in the dust and the wet; they provide resistance to chemical attack, weather effects and are impervious to the ingress of dust and the damaging effects of water.

The range offers products with a dependable protection rating of IP66 to cover many arduous applications.

Wall mount products can also be purchased less enclosure. Just add "LE" to end of catalogue number when ordering.
