FLAT CAT ™

Trader's Flat Cat has arrived - our slimmest range of power points and switches are ready for use by Australian Electrical Contractors.

What Flat Cat can do for you:

- Switches approved to AS/NZS3133.

- Power points approved to AS/NZS3112.

- Uses brass tunnel terminals that have the screws backed out for easier installation of cabling. Power point terminals have 5.8mm bore to suit 4 x 2.5mm² cable.

- Individually packaged with product label and barcode.

- Fits recessed Australian wall boxes and mounting accessories that use 84mm mounting centres.

- Covers, plates and dollies are made from UV stabilised polycarbonate to avoid discolouring to yellow.

- Standard colour is White. Also available in Matt White, Black, Matt Black and with Brushed Aluminium covers.

- Fits standard brackets in most installs. Consider recessed brackets / boxes / shrouds for some installs (see below).
